" Your first book on Aged Urine changed my life. I had been ageing my urine for a year before stumbling upon it on Amazon but I didn't have the balls to drink the aged urine until I read your 6 and I had never thought about holding the aged urine for an extended period of time. That practice alone has had the BIGGEST impact on my experience. The results are not as instantaneous as drinking it but I've been doing it consistently for a week now and a couple of things have been happening. 1)my intuition has gone through the roof.2)I can physically see the spirits, angels, and guides now. It's something I've been working on for a couple of years, and I was able to see flashes of light before when they were present but now their presence is OBVIOUS and undeniable like another person standing in the room in the room with me.3)My life and dream realities are beginning to blur together. It's hard to explain but it's like the 3D and 4D are blended together which happened to me previously but rarely. Like a dream dejavu throughout the day if that makes any sense! Anyway, so grateful for your message and content."- Jennifer Ann

"I feel blissed out after ingesting aged urine for sure . Aged Urine affects my mood and energy more quickly than fresh and instantaneously makes me feel better and higher vibrations" -Jennifer Ann

Urine therapy has been a game changer for sure. UT has in and of itself been profound but the aged stuff brings it to a whole new level. Snorting, drinking and rubbing it on my skin has an immediate effect the brightens my whole system. Seeing this I started working on increasing my collection. Now have jars all over the place It blows my mind that this water of life is freely available and custom made for us. We have a tap of our own medicine that helps to increase our vibration and cleanse us out. Slowly rediscovering that we are truly free energy generators." -Vimal

#### Speaking on my aged urine book

"I read the book yesterday, even though I did quite some with urine lately (like making it most of my daily fluid intake since august this year), I used aged urine only sparingly. the book has been game changer, I started to rub it, use in ears, and ordered some canisters for storage, some spray bottles, eye droppers, an enema bulb and such, and will progressively integrate this approach. also started drinking aged urine in the morning, feels good, so far, I only did morning urine, as well as what I collected over night. *O* ther ways of how I use it not mentioned in the book: swishing, eyebathing (in this case using an eye bathtub, yet will do the spraying thing, too), as well as adding quite some aged urine to bathwater, like 2 liters (not sure how effective this is). thanks again, I feel like this is a gem right in front of the worlds face, and almost nobody making use of it. I have a great feeling about this, also it seems very natural to do. and my body loves it. eager to go deeper into this-Michael Tmbltr

Aged urine <code>`+ORIN`+is</code> the most powerful elixir in existence, this am 100% certain of. Eye am on day 3 of a dry fast with the exception of a full wine glass of my 6month aged Orin. Nothing compares to this. Eye do no breathwork, my highly oxygenated orin does it all for me. Why work when you can play. This is the easiest dry fasting Eye have ever done in my life only because of this powerful blood plasma. That's what your urine is> your sacred blood plasma. Eye don't drink for the taste, Eye drink for the powerful cleaning and accelerated purification of my body. The only way out is in !

This is the plasma reset. And it's not happening out there it's happening inside of you...inside of us.

The moment it goes down my throat my whole body tin-

electrifies....similar to the feeling when you take drugs. Then Eye see all the hairs on my body stand up like goosebumps but Eye am not cold at all. Eye put my hand to my heart and my heart is beating so fast. An overwhelming sense of peace, clarity, ECSTASY washes over me. Similar to drugs but millions n millions times better. Eye used to take a lot of chemical drugs for a very long time.

Eye now know this is the feeling Eye was seeking. Deep inside me Eye knew that this feeling of supreme ecstasy was my natural state. Except eye never needed the drugs it's been inside me all along... Eye only needed to purify and clean my temple. Aged orin is the bridge that got me here'+ Sure it doesn't taste pleasant but neither does blue cheese, parmesan, or even a lot of alcoholic spirits but Eye used to gauge on all of them in the past imagining it was some delicacy and caused so much harm and destruction to my cells. Aged orin does not cause any harm, only deep healing, it enables purification of the temple and a complete opening of all the chakras. Eye have never experienced anything like it. If you have tried wormwood herb or even dr Sebi bromide powder (seamoss) well aged orin is no where near as pungent as either of these ....there's so much more to tell but Eye am too high to be typing on this screen.

Eye love you and so eye share this sacred and ancient knowledge from my heart to yours to inspire you on your journey to a constant state of bliss. Please follow my wonderful sister @monicashuett in her stories right now is the most beautiful synchronisation of her knowledge about aged urine therapy crafted into digital he(ART)work. She has been drinking and using her orin for over 20 years and she is my greatest inspiration and dearest teacher. Eye am eternally greatful to Monica and my only desire is to inspire you in the same way that she inspired me. if this resonates she also has a YouTube Chanel with so many videos full of wisdom. There is nothing to buy here, nothing to sell ...only a knowledge and a gift from God that is inside of you. We

are the ones we have been waiting for ...so why wait..? -Jes Sie

### "Aged Urine: It ages so we don't have to." - Carlos Garcia

Harry Matadeen Yes absolutely! Sun bathing, sun gazing, UT, solarized rain water, breathing exercises, meditation. I'm in a good place today! There's a lot of things I did today because of you! Thank you so much for sharing so many beneficial life habits. Full of energy, happy and grateful!

-Prana Mellisha

Hi Harry Matadeen and your connections on FB that are still feeling resistance towards UT (not ready to post this on my own timeline... yet)

Here is my update on UT. After huge initial resistance I kept being drawn to it. Aged two bottles that are now 4 months + and suninfused. Started with some fresh drops in eyes, on skin (little injuries, itchy spots, mosquito bites) and in homeopathic doses orally to conquer my aversion and was convinced by its medicinal qualities immediately.

Since two weeks I am looping fresh urine consistently and the taste is absolutely amazing: sweet and neutral, the more clean I eat (...fruits), the better it tastes). I am amazed!

The spiritual/energetic effects just blow me away: It is like

in the movie Avatar where the beings plug in the tree of life with their hair. It is like putting the plug in my own socket. It is an absolutely intimate and familiar act of drinking my water of life, of drinking myself, Anke.

Also on the physical level I am experiencing great benefits: biggest one is that it stops any cravings for food. I am simply not hungry nor craving for junk. What a liberation!

Second effect is that I have an energetic and physical blockage in my stomach/small intestine for 20 years that I havent been able to cure yet, that put me on the path of cleaning up my diet. As soon as the urine passes that painful spot it starts to loosen up and the energy there gets into

Third effect is that it helps with regular bowel movements. Enemas are my friend, but I feel I am not dependent on them anymore!

I am excited about this. Another ����� to raising my vibration and taking my well being to a next level. I am currently in Italy visiting the pranic festival and look forward coming home and start the aged. No resistance left, just multiplied pure JOY.

Thank you for you exposing yourself and what you believe in so shamelessly to the world. I definetely received a

"Hi Harry. You could never wear me down from Urine therapy or any other health protocols that you happen to stumble upon. One of the many reasons I prefer to watch, even re-watch your videos, over watching many other Youtuber's videos would be due to how passionate you are and an almost endless source of some of the most valuable informationover a short course of time.

I hadn't thought about it until I watched your video. I allow my german shephard to sleep in my bed, when he does he tends to curl up and rest his head around my calves. Which

#### in turn, causes me to lay still. In that proccess I've noticed

a massive warmth creep on me throughout my body. For years I wondered why. Honestly thanks man, for always leaving me wanting to watch more content you provide or dig furtherin understanding these protocols.

I highly respect, appreciate and applaud you for the time you've invested into sharing your knowledge, experiences, and how its manifested your journey. Finding your channel and viewing the content has never been a waste of time. Again, thanks brother. Cheers"

# Fresh Urine

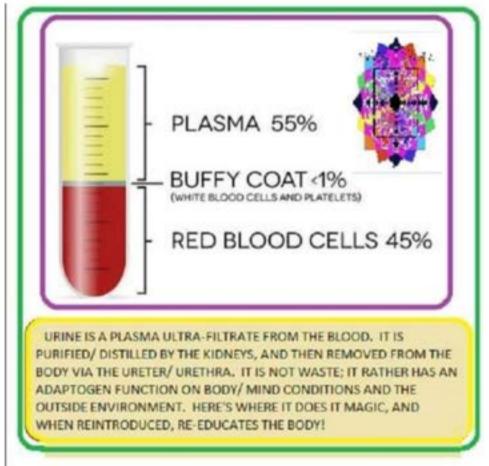

This being the sequel to my first book on aged urine, ( the

#### first ever too

exclusively devoted to this subject) we should touch bases generally with urine therapy generally and the wonders of our miraculous fresh urine. We swam in this for 9 months, fact no 1 and fact no 2 it was your mums pee first few months until you are a tiny little foetus self developed/ formed a bladder then you swam in your own urine. It was essential for you life form and who you are today, you drank it in the womb and also took it in through your nose, and it is now recognized that this amniotic fluid comprimised largely of your mums/your urine and is essential to grow the organs and lungs of your body.

Why Is Humanity rejecting fresh urine and urine therapy when this substance was what made us? We live in an upside down world my friend. Everything they tell us is a lie. Especially regarding health. It must be that way so we can be dependant on people outside ourselves (doctors!) To fix us and pills to pop to give us band aid solutions.

But these do not solve the root cause. Big pharma and pills never do. *The answer lies inside you*. Your own urine fresh from the tap is very powerful, it was designed as an instant medicine to clean out your pipe system, remove inorganic encumbrances that cause blockages and disease, to heal wounds cuts and bruises, to stop heart attacks and strokes, to save your life if you were stung by a poisonous animal even ( hold under tongue your fresh urine twenty seconds after being bitten).

This all sounds so radical. Wasn't I brought up from birth with people telling me urine is a waste product. Didn't momma always tell me to wash my hands after going for a pee. They did. But they all been lied to. This is why this book is key. Fresh urine therapy is a good place to dive into true health and wealth, but there is enough information on this subject . *Aged urine is next level medicine. The key saviour of humanity.* So with that being said let us re-visit it as I plug deeper into its history ( recommended by the Buddha!) and exactly why its so goddamn powerful. As I write this im 2 years into *Aged Urine*

"The Virtues Of Human Urine, As A Medicine, Would Require An Entire Volume For Their Enumeration."-Sir Robert Doyle, 17th Century Pioneer in chemistry **Why Is Aged Urine So God**damn Powerful! ( the science stuff).

**Negative Ions.** Fresh urine is structured, all humans so long as we have breath in us are structured beings and our ultra filtered blood plasma( our fresh urine) is no exception. As it comes out it has a structure, leaving it negatively charged, making the urine perfect for re-ingestion back into our system as a negatively charged vessell to pull positively charged toxic crap out. *Heavy metals, excess mucus, inorganic crystals* and other such waste that usually get lodged in and take up space within our body leading to diseased states can be removed with fresh urine therapy, and the negatively charge contained within. Opposites attract, its pure magnetism and fresh urine has that magnetic charge.

But here 's the key difference between fresh urine and aged urine. **The negative ion count grows** as the urine ages, more negative ions not only that but a smaller clusterization of the negative ions leading to an overall increase in the negative charge.

Think of it like this. Fresh urine and structured water found in fruits is a weak negatively charged magnet that pulls positive ion crap from your body. As the urine gets older and older it becomes a stronger and stronger magnet with vastly more pulling power as a consequence and aged urine will plug u deeper into happiness and health as a consequence of its ability as a strong magnet to pull more crap out.

Aged urine is a free medicine powerful enough with its strong magnetism to pull out decades and decades worth of filth from our colon( aged urine enemas), from our fascia and muscles (aged urine massaging) and brain ( aged urine up the nostrum).

This was/is the one thing I missed out in my first book that I have since discovered as the main reason why aged urine is so powerful. As the urine keeps ageing and getting older, what was once fresh urine structured water becomes **aged urine uber super structured water**. There becomes no limit to just how structured the aged urine gets. Its negative ion count keeps on proliferating and getting bigger, but also the ever increasing negative ions get more compact and put into smaller clusters, thus rendering the existing negative ions more effective and increasing the magnetism of this powerful magnet exponentially. A stronger magnet pulls more. It gets more crap out. I say no more. And all those who experiment with aged urine know it really does pull a lot of old ancient crap out of our system. The rising alkalinity of the aged urine( provable easy by any layman with a cheap pH meter of pH strips) maintains the structure of the aged urine as its stronger and stronger structurally, that magical *uber super structured water*. Gerald Pollock would so proud of our discovery! The 4<sup>th</sup> phase of water. There are so many crazy stories.

## **Aged Urine And Negative Ions**

We have proved time and time again ( and you can too

by buying cheap ORP meter) that the amount of negative ions in the aged urine grows and grows with each passing day, and then not only that but the clusterization of these negative ions increases to smaller and smaller, making aged urine a *deadly weapon* for your health that will give you lots of energy, raise your vibration massively and send you into full on detox mode very quickly!

Negative ions alone are wondrous holy medicine that do many things, again all backed by science, like increase immunoglubin a (immune system function), increases movement of cilia, increase brain capacity, thinking speed and memory and provide extra oxygen for the blood calks and tissues. If you seek further information on negative ions

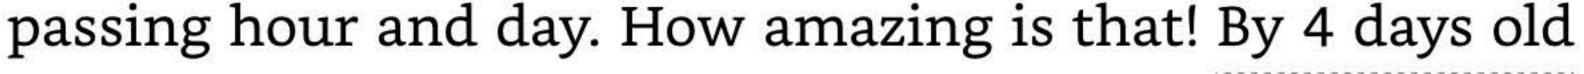

please check out my book, *Negative Ions:The Grand Unifier Of Health And Life*.

## Aged Urine And Nutrition.

All the ingredients present in fresh urine, all the vitamins, minerals, hormones, enzymes, neurotransmitters and stem cells are also present in your aged urine also , with a strong suggestion/ reason to believe that some of the magic in the fresh urine even proliferates, like the stem cells ( science will confirm this one day for sure) and we already know the negative ion count increases, wow. Let me tell you that your aged urine is *the ultimate nutrition drink*, no nedd to buy expensive supplements when you got your aged urine.

#### How To 'Age' Urine

Like I did in my last book, to explain how to age is easy as simple as 1, 2 and Peeee. You pee in any bottle/container/ mason jar glass or plastic, ( preferably glass) and let the urine age all by itself. You can close the lid or leave it open to 'air' matters not to the ageing of urine. It does age slightly faster with open lid though if you want more power in shorter time. The urine is magical and it cant help but grow stronger and stronger as your *perfect medicine* with each
